PRESENTATION for IIAN TECH BUSINESS and SERVICES

Sun. Water. Life.

- **PV Solar Power Plant**
- **Solar Diesel Hybrid Power Plant**
- **Solar Water Pump System**
- **Solar Hybrid Telecom System**
- **Solar Home System**
- **LED Solar Street Lightings**
- **Wind Power Plant**
- **Small Hydro Power Plant**

The Best Solution of the Clean Energy Power Plant

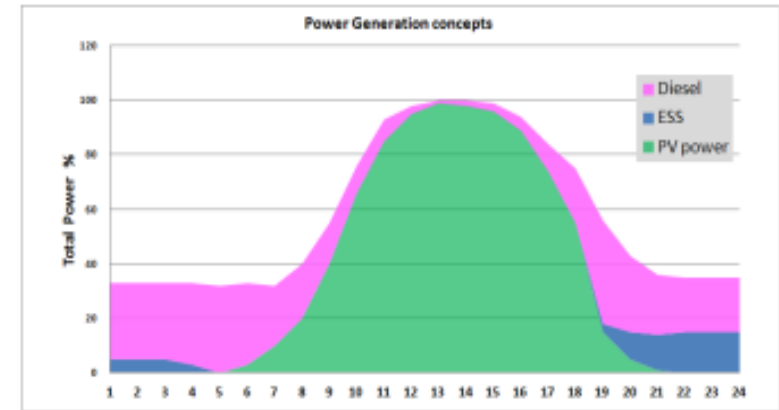

- . **IIAN TECH Provides the Solar Power Plants,**
 - BOT* Base with Project Finance
 - Turn-key, EPC Base Construction
 - Consulting Services
 - Feasibility Study
- . **Operation Mode; On/Off-Grid**
- . **ESS (Energy Storage System)**
- . **Fixed / Variable Tilt or Tracking Type**
- . **Local Education & Training Program**
- . **FIT (Feed In Tariff) Program**
- . **PPA (Power Purchase Agreement)**

BOT* ; Build Operate Transfer

The Most Economic Power Supply System with Micro Grid

- . IIAN TECH Provides the Solar Diesel Hybrid Power Plants,
 - BOT* Base with Project Finance
 - Turn-key, EPC Base Construction
 - Consulting Services
 - Feasibility Study
- . Micro Grid Configuration
 - PV Solar ; Main Power
 - Diesel Generator ; Main/Aux Power
 - BESS (Battery Energy Storage System)
 - . Stabilize Operation for Solar Power
 - . Peak Power Leveling for Consumption
 - . Energy efficiency & Reliable Power Supply
- . Operation Mode; On/Off-Grid

PV Solar

DG Set

BESS

The Unique Solution of Off-grid Water Supply

- . IIAN TECH provides the Solar Water Pump System for Drinking and Irrigation in the isolated area from the electric power.
- . Usage; Desert, Off/On-grid, Standalone, Self Powered Device
- . Submersible Solar Pump,
-50m~450M Head, 300 Ton/hr and more
- . Surface Solar Pump,
-70m Head, 500m³/hr and more
- . DC Power driven Water Pumps,
High Efficiency and Guarantee

Submersible Solar Pump

450m Head

Surface Solar Pump

500m³/Hour

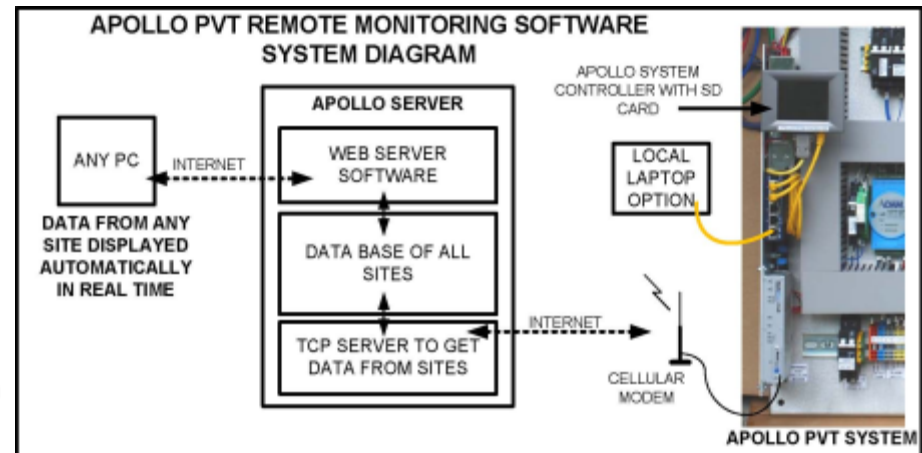

Sun. Water. Life.

Solar Hybrid Telecom System

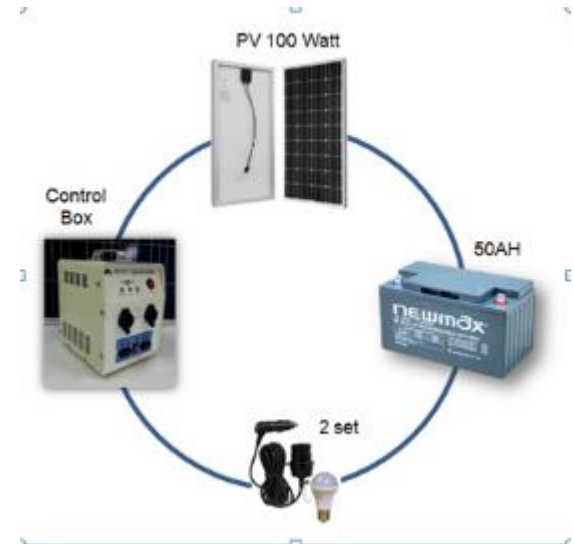

The Most Economic Power Supply System to Telecom Repeater Stations

- . IIAN TECH provides the optimized Hybrid Solar Telecom Systems including Solar, DG and BESS.
- . The Lowest O&M cost by IIAN TECH Hybrid system
- . Off/On-grid and the isolated Area from the electric power
- . Standard Capacity; 500W to 33,600W and over
- . Real Time Remote Monitoring System by the combined Apollo Electronics
- . The Website Software Interfaces
 - Authorized Users from any sites.
- . Indoor or Outdoor Installation
- . IIAN TECH ; The Hybrid Power Supply System
- . Apollo Solar Electronics; Control System

The Most Convenient Homeware for Off-Grid Life, SHS

- . IIAN TECH Provides SHS Appliances, Portable.
- . Integration of AC loads with Inverters
- . AC/DC Power; 100~3,000W
- . For TV, Electric(DC) Refrigerator/Oven/Blanket, Lamps, Radio, Outdoor TV, Beam Projector, USB, Mobile Phone, Notebook PC, Camera
- . Reliable and Free of Maintenance
- . Safety; Charge/Load/Temperature Protection
- . Warranty ; 5 Years
- . **GET POWER** when you are **Powerless** !!!

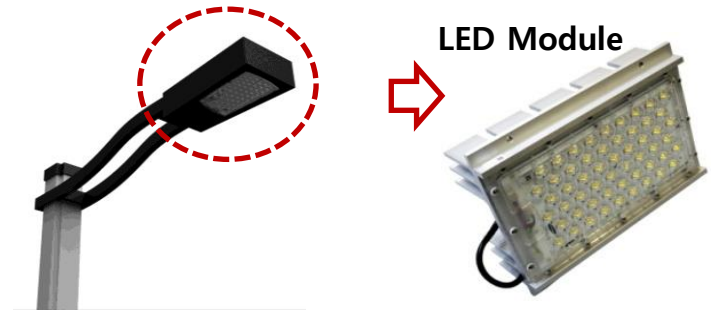

LED Solar Street Lightings

The Most Economic and Comfortable Street Lighting

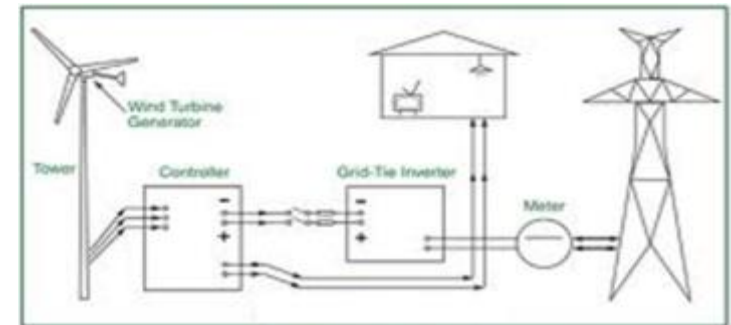

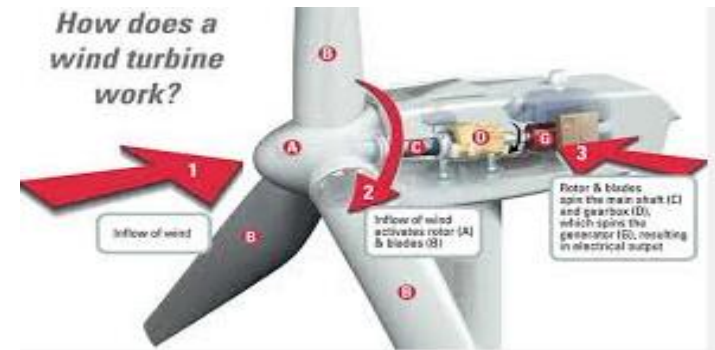

- IIAN TECH Provides the LED Solar Street Lighting System with Turnkey EPC Base,
 - PV Module; Korean Product, Ceramic Coated
 - Battery(Li-ion); 20 years life time
 - Charge Controller/Control Box
 - Inverters
 - LED Bulbs; high brightness, Lifetime > 50,000hr
 - Lighting Poles
 - Cables & Wires
- Miracle cost savings and high brightness!!
- For Street, Airport, Factory and Parking Area
- The Best Way to Save Electric Cost

LED BULBS

The Most Economic Renewable Energy Power Plant

- **IIAN TECH Provides the Solution of the Wind Power Plants,**
 - BOT Base with Project Finance
 - Turn-key, EPC Base Construction
 - Consulting Services
 - Feasibility Study
- **High Efficiency, Solidity and Reliability**
- **Integrated Solutions of Energy & Environment**
- **Local Education & Training Program**
- **On Shore and Coastal Area**
- **PPA (Power Purchase Agreement) under FIT (Feed In Tariff) Program.**
- **Consortium, Joint Venture Participation with the Wind Turbine Supplier and local partner.**

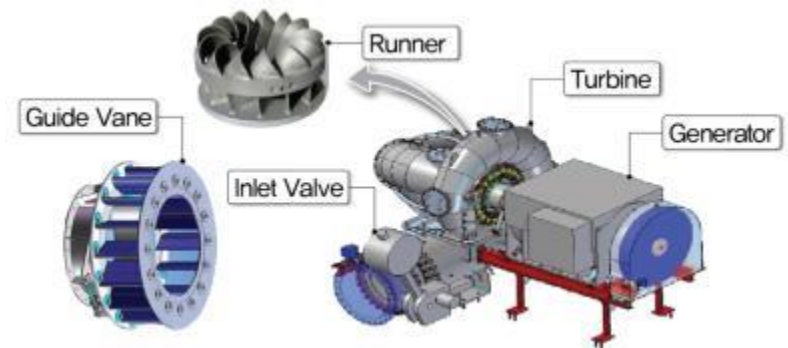

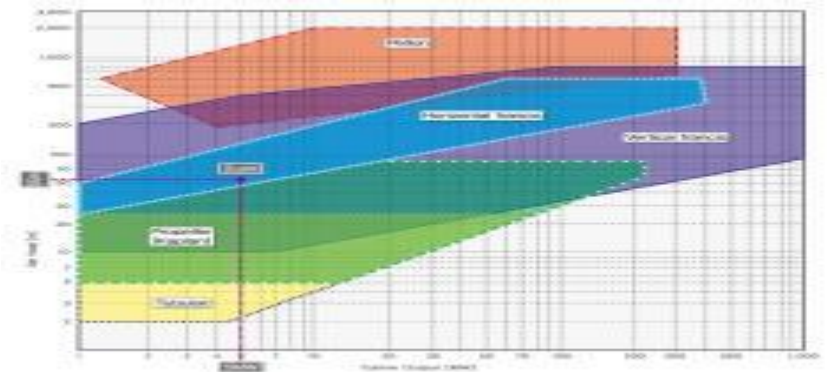

The Most Economic Renewable Energy Power Plant

- IIAN TECH Provides the Solution of Small Hydro Power Plants,
 - BOT Base with Project Finance
 - Turn-key, EPC Base Construction
 - Consulting Services
 - Feasibility Study

with

- High Efficiency Design
 - Environmental Impact-Free Management
 - Carbon Dioxide-Free Power Production
 - Local Operation and Maintenance
 - PPA (Power Purchase Agreement) under FIT (Feed In Tariff) Program
- Consortium, Joint Venture Participation with local partners.

THANK YOU

Reliable Business Partner
IIAN TECH Co.
